## EXPERIENCE

### PreciseTarget JavaScript Developer

Jan 2017 — Feb 2018

Bethesda, MD

React, Redux, JS ES6, Sass, Jira, React Boilerplate

- Put together JS prototypes before deciding to convert it to a full React application
- Designed and implemented a React app to manage a taxonomy with thousands of categories, increasing the accuracy of product categorization
- Developed an internal tool that allowed clients to create an account and personalize mini-stores for specific sale seasons and categories
- Implemented features in an agile environment following SOLID principles to filter thousands of vendor products within a mini-store

### Game Lab – AU Independent Contractor

June 2016 — Oct 2017

Washington, DC

Angular JS, p5, Sass, Gulp, Yeoman, Bower

- Created an Angular & p5 web game called Awkward Annie for ETS, the largest private nonprofit assessment organization

### TA Intro to CS & Game Development

Aug 2015 — May 2016

Washington, DC

Unity, C#, P5, Blackboard

- Mentored an average of 25 students during office hours for two different courses
- Guided students through the basic concepts of programming using p5 for one semester
- Tutored the game dev students on developing and designing games using C# in Unity
- Collaborated with the professor to create rubrics for grading assignments

## ACTIVITIES

### Secretary & Outreach Chair Board Member of AU ACM

Aug 2015 — May 2016

Washington, DC

Gmail Groups, Facebook Events

- Piqued interest in the computer science department by hosting Tech industry members to share their work experience
- Increased event attendance by 50% through social media outreach and reminders

### Lighthouse Labs Member of WomenInWebDev Team

Oct 2018, Feb 2019

Vancouver, BC

- Solved daily JS challenges along with the Women in Web Dev FB group against international teams
- The team won 1st place in October
- Participated in daily prompts while mentoring teammates on best practices and problem solving

### WomenWhoCode Member

May 2016 — Present

Washington, DC

- Attended hackathons, meetups and workshops on various tech topics

## SKILLS
